**DETAILED ACTION**

***Election/Restrictions***

This application contains claims directed to the following patentably distinct species of the claimed invention:

5       Species I, FIG. 5, claims 1, 2, 9-15, 18-26, 28 and 29;

      Species II, FIG. 6 and 12, claims 3-5, 32, 33, 34, 35, 36,  
40, 41, 42-46, 49, 50 and 51;

      Species III, FIGS. 7, claims 8 and 33;

      Species IV, FIGS. 8 and 11, claims 16, 17, 27, 30 and 31;

10       Species V, FIGS. 9 and 10, claims 37, 38, 39, 41 and 48;

      Species VI, FIG. 13, claim 6 and 7.

      Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held  
15 to be allowable. Currently, claims 1 and 2 are generic.

      Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement and a listing of all claims readable thereon, including any claims subsequently added. The  
20 above listing is provided as a guide. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Art Unit: 2862

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
